

JLT VERSO+ 10 for Tight Areas

Slim Computer in **Industry's Most Compact Form Factor**, Perfect for Installation in Tight Areas

The VERSO+ 10 computer represents a new class of rugged vehicle terminals. With leading performance in the industry's smallest rugged form factor, it is a perfect choice for installations in tight spaces. Thanks to the JLT QuickLock feature, the computer can easily be mounted and dismounted in a vehicle to simplify service, be moved between vehicles, or be removed at the end of the working day to prevent theft. The scratch resistant touch screen with JLT PowerTouch™ display technology provides the best durability and user experience, while its flush front is simple to keep clean.

Leading Performance and Ruggedness for Heavy Duty Industries

With an Intel® Core™ i5 processor, 64-bit operating system, 8GB DDR3 RAM, and a sunlight-viewable XGA display, the VERSO+ 10 computer is ready for the most demanding applications, such as HD video streaming, GEO calculations, and real-time data processing. To ensure reliable wireless communication over long distances in challenging environments, the VERSO+ 10 features built-in highly sensitive PIFA antennas for WiFi and Bluetooth.

Cradle Optimized for the Logistics Market

The VERSO+ 10 rugged computer is also available with a cradle optimized for indoor or in-cab use in logistics, warehousing and transportation. The exceptional computing power and compact form factor of the VERSO+ 10 computer with

the new logistics dock makes it the perfect choice for installation in logistics applications such as forklifts, picking trolleys and small truck cabins.
